A Comprehensive Overview of the Budget Cycle Training Course

Professional Development Training Course Outline

Category	Public Financial Management & Budgeting	**Duration**	10 Days
Base Fee	$3,000 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Effective public financial management is the backbone of sustainable economic growth, fiscal accountability, and transparent governance. A Comprehensive Overview of the Budget Cycle Training Course is designed to equip professionals, policymakers, financial managers, and development practitioners with practical insights into the budget planning, formulation, execution, monitoring, and evaluation processes. This highly interactive course emphasizes budget transparency, fiscal discipline, public expenditure management, financial reporting, and accountability mechanisms, preparing participants to strengthen budgetary systems and align them with international best practices.

In today's rapidly changing environment, organizations and governments are under increasing pressure to ensure efficient resource allocation, participatory budgeting, evidence-based decision-making, and performance-driven financial planning. This training course provides a step-by-step understanding of the budget cycle, integrating strategic planning, forecasting, expenditure control, audit practices, and evaluation tools. By the end of the program, participants will have the knowledge and skills to apply modern budgetary frameworks, enhance governance, improve financial sustainability, and foster inclusive development outcomes.

Programme Curriculum

A Comprehensive Overview of the Budget Cycle Training Course

Introduction

Effective public financial management is the backbone of sustainable economic growth, fiscal accountability, and transparent governance. A Comprehensive Overview of the Budget Cycle Training Course is designed to equip professionals, policymakers, financial managers, and development practitioners with practical insights into thebudget planning, formulation, execution, monitoring, and evaluation processes. This highly interactive course emphasizes budget

transparency, fiscal discipline, public expenditure management, financial reporting, and accountability mechanisms, preparing participants to strengthen budgetary systems and align them with international best practices.

In today's rapidly changing environment, organizations and governments are under increasing pressure to ensureefficient resource allocation, participatory budgeting, evidence-based decision-making, and performance-driven financial planning This training course provides a step-by-step understanding of the budget cycle, integrating strategic planning, forecasting, expenditure control, audit practices, and evaluation tools.
