Advanced PPP Framework Development Training Course

Professional Development Training Course Outline

Category	General Training	**Duration**	10 Days
Base Fee	$3,000 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Advanced Public-Private Partnerships (PPP) Framework Development is designed to equip professionals with advanced knowledge and practical capabilities for developing, evaluating, reforming, and implementing effective PPP frameworks. The course focuses on Public-Private Partnership policy development, institutional architecture, legal and regulatory frameworks, project governance, risk allocation, financial structuring, procurement, value-for-money analysis, infrastructure investment, and sustainable public-private collaboration.

Participants will explore international Public-Private Partnership standards, emerging infrastructure financing models, digital transformation, ESG considerations, climate-resilient infrastructure, blended finance, and strategic project pipelines. Through practical exercises and global case studies, the course strengthens institutional capacity to create transparent, bankable, commercially viable, and sustainable PPP programmes that deliver measurable public value.

Programme Curriculum

Advanced Public-Private Partnerships Framework Development Training Course

Introduction

Advanced Public-Private Partnerships (PPP) Framework Development is designed to equip professionals with advanced knowledge and practical capabilities for developing, evaluating, reforming, and implementing effective PPP frameworks. The course focuses on Public-Private Partnership policy development, institutional architecture, legal and regulatory frameworks, project governance, risk allocation, financial structuring, procurement, value-for-money analysis, infrastructure investment, and sustainable public-private collaboration.

Participants will explore international Public-Private Partnership standards, emerging infrastructure financing models, digital transformation, ESG considerations, climate-resilient infrastructure, blended finance, and strategic project pipelines. Through practical exercises and global case studies, the course strengthens institutional capacity to create transparent, bankable, commercially viable, and sustainable PPP programmes that deliver measurable public value.

Course Objectives

By the end of the course, participants will be able to:

1. Develop advanced Public-Private Partnership frameworks and institutional structures.
2. Formulate effective PPP policies and implementation strategies.
3. Apply international Public-Private Partnership standards and best practices.
4. Strengthen PPP governance, transparency, and accountability.
5. Design effective legal and regulatory frameworks.
6. Evaluate project feasibility and value for money.
7. Develop sophisticated risk allocation frameworks.
8. Structure bankable Public-Private Partnership transactions and financing models.
9. Integrate ESG and climate-resilient infrastructure principles.
10. Strengthen PPP procurement and contract management.
11. Develop strategic infrastructure project pipelines.
12. Apply digital technologies to Public-Private Partnership programme management.
13. Evaluate and improve existing national PPP frameworks.

Organizational Benefits

- Stronger PPP governance systems.
- Improved infrastructure project selection.
- Enhanced investment readiness.
- Better risk management.
- Greater fiscal discipline.
- Improved procurement transparency.
- Stronger institutional capacity.
- Increased private-sector participation.
- Enhanced project bankability.
- Sustainable infrastructure delivery.

Target Audiences

1. PPP unit executives and managers.
2. Government policymakers and officials.
3. Infrastructure development professionals.
4. Public-sector project managers.
5. Legal and regulatory specialists.
6. Investment and finance professionals.
7. Development-finance institutions.

8. Private-sector infrastructure executives.

Course Duration: 10 days

Course Modules

Module 1: Advanced PPP Framework Architecture

- PPP framework components and architecture.
- Strategic framework development principles.
- Institutional roles and responsibilities.
- Framework maturity assessment.
- Implementation and reform roadmaps.
- Case study: United Kingdom PPP framework.

Module 2: PPP Policy Development and Reform

- Evidence-based PPP policy design.
- Policy objectives and strategic alignment.
- Reform priorities and sequencing.
- Stakeholder consultation mechanisms.
- Policy implementation governance.
- Case study: South Africa PPP reforms.

Module 3: PPP Institutional Governance

- PPP unit structures and mandates.
- Inter-agency coordination mechanisms.
- Governance accountability systems.
- Institutional capacity development.
- Performance monitoring frameworks.
- Case study: Singapore infrastructure governance.

Module 4: Legal and Regulatory Frameworks

- PPP legislation and regulations.
- Contractual and statutory requirements.
- Regulatory certainty and predictability.
- Dispute-resolution mechanisms.
- Legal reform strategies.
- Case study: India PPP regulatory development.

Module 5: Strategic PPP Programme Planning

- Infrastructure pipeline development.
- Project prioritization frameworks.
- Strategic investment planning.
- Portfolio management principles.
- Programme performance indicators.
- Case study: Australia infrastructure pipeline.

Module 6: Project Identification and Feasibility

- Project screening methodologies.
- Technical feasibility assessment.
- Economic and financial viability.
- Demand and affordability analysis.
- Bankability assessment.
- Case study: Kenya infrastructure projects.

Module 7: Value-for-Money and Public Sector Comparator

- Value-for-money principles.
- Public-sector comparator development.
- Lifecycle cost analysis.
- Affordability assessment.
- Sensitivity and scenario analysis.
- Case study: Canada PPP evaluation.

Module 8: Risk Allocation and Management

- PPP risk identification.
- Optimal risk allocation.
- Risk pricing methodologies.
- Contingent liability management.
- Risk mitigation strategies.
- Case study: Australian PPP risk allocation.

Module 9: PPP Financial Structuring

- Project finance fundamentals.
- Debt and equity structures.
- Blended-finance mechanisms.

- Revenue and payment models.
- Financial close considerations.
- Case study: European infrastructure financing.

Module 10: PPP Procurement and Market Engagement

- Competitive procurement strategies.
- Prequalification and tendering.
- Market sounding techniques.
- Bid evaluation frameworks.
- Transparency and integrity controls.
- Case study: Philippines PPP procurement.

Module 11: Contract Development and Management

- PPP contract architecture.
- Performance-based obligations.
- Service-level agreements.
- Contract monitoring mechanisms.
- Renegotiation and termination provisions.
- Case study: Chile concession management.

Module 12: ESG and Sustainable Public-Private Partnership Frameworks

- ESG integration into Public-Private Partnerships.
- Climate-resilient infrastructure.
- Social safeguards and inclusion.
- Green infrastructure financing.
- Sustainability performance indicators.
- Case study: European green infrastructure.

Module 13: Digital Transformation of PPPs

- Digital PPP lifecycle management.
- Infrastructure data platforms.
- AI-supported project analytics.
- Digital procurement systems.
- Real-time performance monitoring.
- Case study: Singapore Smart Nation.

Module 14: PPP Performance and Portfolio Management

- Key performance indicators.
- Portfolio risk monitoring.
- Contract performance evaluation.
- Fiscal exposure monitoring.
- Continuous framework improvement.
- Case study: United Kingdom infrastructure monitoring.

Module 15: Advanced Public-Private Partnership Framework Implementation

- Framework implementation planning.
- Institutional change management.
- Stakeholder engagement strategies.
- PPP capacity-building programmes.
- Continuous improvement mechanisms.
- Case study: Brazil Public-Private Partnership programme development.

Training Methodology

- Instructor-led advanced presentations.
- Interactive Public-Private Partnership framework workshops.
- International case-study analysis.
- Group-based project simulations.
- Risk allocation exercises.
- Financial modelling exercises.
- Policy and regulatory development exercises.
- Peer-to-peer knowledge exchange.
- Practical framework assessment.
- Facilitated action-planning sessions.
