

Aviation Business Continuity Leadership Training Course

Professional Development Training Course Outline

Category	Aviation and Airport Management	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Aviation Business Continuity Leadership is a strategic discipline that enables airports, airlines, air navigation service providers, ground handling companies, regulators, and aviation support organizations to sustain critical operations during disruptions while maintaining safety, security, compliance, operational resilience, and customer confidence. Aviation Business Continuity Leadership Training Course equips professionals with practical knowledge of Business Continuity Management (BCM), Crisis Leadership, Enterprise Risk Management (ERM), Operational Resilience, Disaster Recovery, Emergency Preparedness, Cyber Resilience, Regulatory Compliance, and Aviation Safety Management Systems (SMS). Participants will learn internationally recognized approaches for identifying critical business functions, assessing risks, minimizing operational downtime, protecting organizational assets, and ensuring uninterrupted aviation services during emergencies.

The course integrates global best practices, ICAO recommendations, ISO 22301 Business Continuity standards, airport resilience strategies, aviation crisis communication, digital transformation, cybersecurity preparedness, and organizational recovery planning. Through interactive discussions, practical exercises, global aviation case studies, leadership simulations, and scenario-based planning, participants will strengthen decision-making capabilities, improve organizational resilience, optimize business continuity governance, and develop sustainable continuity strategies capable of responding effectively to natural disasters, pandemics, cyber threats, infrastructure failures, supply chain disruptions, and other operational crises.

Programme Curriculum

Aviation Business Continuity Leadership Training Course

Introduction

Aviation Business Continuity Leadership is a strategic discipline that enables airports, airlines, air navigation service providers, ground handling companies, regulators, and aviation support organizations to sustain critical operations during disruptions while maintaining safety, security, compliance, operational resilience, and customer confidence. Aviation Business Continuity Leadership Training Course equips professionals with practical knowledge of Business Continuity Management (BCM), Crisis Leadership, Enterprise Risk Management (ERM), Operational Resilience, Disaster Recovery, Emergency Preparedness, Cyber Resilience, Regulatory Compliance, and Aviation Safety Management Systems (SMS). Participants will learn internationally recognized approaches for identifying critical business functions, assessing risks, minimizing operational downtime, protecting organizational assets, and ensuring uninterrupted aviation services during emergencies.

The course integrates global best practices, ICAO recommendations, ISO 22301 Business Continuity standards, airport resilience strategies, aviation crisis communication, digital transformation, cybersecurity preparedness, and organizational recovery planning. Through interactive discussions, practical exercises, global aviation case studies, leadership simulations, and scenario-based planning, participants will strengthen decision-making capabilities, improve organizational resilience, optimize business continuity governance, and develop sustainable continuity strategies capable of responding effectively to natural disasters, pandemics, cyber threats, infrastructure failures, supply chain disruptions, and other operational crises.

Course Objectives

By the end of this training, participants will be able to:

1. Develop comprehensive Aviation Business Continuity Plans.
2. Apply ISO 22301 Business Continuity Management principles.
3. Strengthen aviation operational resilience strategies.
4. Conduct enterprise-wide Business Impact Analysis (BIA).
5. Perform aviation risk identification and assessment.
6. Lead crisis management and emergency response teams.
7. Improve aviation disaster recovery planning.
8. Integrate cybersecurity resilience into continuity planning.
9. Enhance crisis communication and stakeholder coordination.
10. Strengthen regulatory compliance and governance frameworks.
11. Improve supply chain resilience across aviation operations.
12. Monitor continuity performance using resilience metrics.
13. Build a proactive organizational resilience culture.

Organizational Benefits

- Improved operational continuity.
- Reduced business interruption losses.
- Faster disaster recovery capabilities.
- Enhanced regulatory compliance.
- Stronger organizational resilience.
- Better crisis decision-making.
- Increased customer confidence.
- Improved stakeholder coordination.

- Enhanced cyber resilience.
- Sustainable business performance.

Target Audiences

- Airport Executives
- Airline Managers
- Aviation Safety Managers
- Business Continuity Managers
- Emergency Response Coordinators
- Airport Operations Managers
- Aviation Security Professionals
- Government Aviation Regulators

Course Duration: 5 days

Course Modules

Module 1: Aviation Business Continuity Fundamentals

- Business continuity principles in aviation.
- Aviation resilience framework development.
- Critical business function identification.
- Regulatory and compliance requirements.
- Leadership responsibilities in continuity planning.
- Global Case Study: Heathrow Airport operational resilience strategy.

Module 2: Risk Assessment and Business Impact Analysis

- Enterprise risk identification techniques.
- Aviation threat and vulnerability assessment.
- Business Impact Analysis methodology.
- Critical process prioritization.
- Risk treatment planning.
- Global Case Study: Iceland volcanic ash disruption response.

Module 3: Crisis Leadership and Emergency Management

- Crisis leadership competencies.
- Emergency operations coordination.
- Incident command structures.
- Decision-making under pressure.
- Crisis communication strategies.

- Global Case Study: Singapore Changi Airport crisis response.

Module 4: Business Continuity Planning

- Business continuity plan development.
- Recovery strategy design.
- Resource allocation planning.
- Continuity documentation standards.
- Plan validation techniques.
- Global Case Study: Delta Air Lines operational recovery.

Module 5: Disaster Recovery and Cyber Resilience

- Disaster recovery frameworks.
- ICT continuity planning.
- Cybersecurity incident preparedness.
- Digital infrastructure resilience.
- Data backup and recovery.
- Global Case Study: British Airways IT outage recovery.

Module 6: Supply Chain and Operational Resilience

- Aviation supply chain risk management.
- Vendor continuity planning.
- Logistics resilience strategies.
- Infrastructure continuity planning.
- Critical supplier evaluation.
- Global Case Study: COVID-19 aviation supply chain recovery.

Module 7: Testing, Exercises and Performance Improvement

- Business continuity testing methods.
- Crisis simulation exercises.
- Recovery performance evaluation.
- Corrective action planning.
- Continuous improvement processes.
- Global Case Study: Dubai Airports resilience exercise program.

Module 8: Governance, Compliance and Future Resilience

- ISO 22301 implementation roadmap.

- Aviation governance frameworks.
- Regulatory audit preparedness.
- Organizational resilience culture.
- Emerging continuity technologies.
- Global Case Study: Sydney Airport resilience governance model.

Training Methodology

- Interactive expert-led presentations.
- Facilitated group discussions.
- Aviation case study analysis.
- Crisis leadership simulations.
- Business continuity planning workshops.
- Risk assessment practical exercises.
- Business Impact Analysis activities.
- Disaster recovery planning sessions.
- Team-based scenario exercises.
- Knowledge assessments and participant feedback.

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

- a. The participant must be conversant with English.
- b. Upon completion of training the participant will be issued with an Authorized Training Certificate
- c. Course duration is flexible and the contents can be modified to fit any number of days.
- d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.
- e. One-year post-training support Consultation and Coaching provided after the course.
- f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
21 Sep 2026	25 Sep 2026	Online	\$1,000
21 Sep 2026	25 Sep 2026	Physical	\$1,500
21 Sep 2026	25 Sep 2026	Physical	\$0
21 Sep 2026	25 Sep 2026	Physical	\$0
21 Sep 2026	25 Sep 2026	Physical	\$0
21 Sep 2026	25 Sep 2026	Physical	\$0
21 Sep 2026	25 Sep 2026	Physical	\$0
