Aviation Security Leadership Training Course

Professional Development Training Course Outline

Category	Aviation and Airport Management	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Aviation Security Leadership Training Course equips aviation professionals with advanced leadership, strategic security management, aviation risk assessment, crisis response, airport resilience, regulatory compliance, security governance, and organizational excellence skills required to protect modern aviation systems. As global aviation faces evolving threats such as cyberattacks, insider risks, terrorism, drone intrusions, and transnational crime, effective aviation security leadership has become a critical success factor. This course integrates ICAO Annex 17 standards, risk-based security management, leadership competencies, security culture, emergency preparedness, and operational excellence to enhance organizational performance and passenger confidence.

Participants will strengthen their ability to lead aviation security teams, manage complex security operations, implement intelligence-driven security strategies, improve stakeholder collaboration, and foster continuous improvement across airports and airlines. Through practical case studies, leadership simulations, global best practices, and strategic decision-making exercises, participants will develop the competencies needed to build resilient aviation security programs while ensuring regulatory compliance, operational efficiency, and sustainable security performance.

Programme Curriculum

Aviation Security Leadership Training Course

Introduction

Aviation Security Leadership Training Course equips aviation professionals with advanced leadership, strategic security management, aviation risk assessment, crisis response, airport resilience, regulatory compliance, security governance, and organizational excellence skills required to protect modern aviation systems. As global aviation faces evolving threats such as cyberattacks, insider risks, terrorism, drone intrusions, and

transnational crime, effective aviation security leadership has become a critical success factor. This course integrates ICAO Annex 17 standards, risk-based security management, leadership competencies, security culture, emergency preparedness, and operational excellence to enhance organizational performance and passenger confidence.

Participants will strengthen their ability to lead aviation security teams, manage complex security operations, implement intelligence-driven security strategies, improve stakeholder collaboration, and foster continuous improvement across airports and airlines. Through practical case studies, leadership simulations, global best practices, and strategic decision-making exercises, participants will develop the competencies needed to build resilient aviation security programs while ensuring regulatory compliance, operational efficiency, and sustainable security performance.

Course Objectives

Upon completion of this course, participants will be able to:

1. Develop strategic aviation security leadership competencies.
2. Implement ICAO Annex 17 security requirements effectively.
3. Strengthen airport security governance frameworks.
4. Lead risk-based aviation security management programs.
5. Improve aviation threat and vulnerability assessments.
6. Enhance crisis leadership and emergency response coordination.
7. Strengthen cybersecurity awareness within aviation operations.
8. Promote intelligence-led security decision making.
9. Improve stakeholder collaboration and interagency coordination.
10. Develop resilient airport security cultures.
11. Optimize aviation security performance monitoring systems.
12. Enhance incident investigation and corrective action processes.
13. Drive continuous improvement through security innovation.

Organizational Benefits

- Improved organizational security resilience.
- Enhanced regulatory compliance.
- Stronger leadership decision-making.
- Increased operational efficiency.
- Better crisis preparedness.
- Reduced security vulnerabilities.
- Improved stakeholder coordination.
- Enhanced passenger confidence.
- Stronger security culture.
- Sustainable organizational performance.

Target Audience

- Airport Security Managers
- Aviation Security Supervisors

- Airline Security Managers
- Airport Operations Managers
- Civil Aviation Authority Officials
- Aviation Safety Managers
- Emergency Response Coordinators
- Aviation Security Consultants

Course Duration: 5 days

Course Modules

Module 1: Aviation Security Leadership Fundamentals

- Principles of aviation security leadership
- Leadership styles in aviation security
- Security governance responsibilities
- Ethical leadership and accountability
- Building high-performing security teams
- Case Study: Leadership transformation at Singapore Changi Airport

Module 2: Aviation Security Risk Management

- Aviation threat identification
- Risk assessment methodologies
- Vulnerability analysis
- Security mitigation planning
- Enterprise security risk management
- Case Study: Risk management improvements at Heathrow Airport

Module 3: ICAO Compliance and Regulatory Frameworks

- ICAO Annex 17 requirements
- National Civil Aviation Security Programs
- Regulatory inspections
- Compliance monitoring
- International security standards
- Case Study: ICAO security audit improvement initiatives

Module 4: Crisis Leadership and Emergency Response

- Crisis leadership principles
- Emergency response coordination
- Business continuity planning

- Incident command systems
- Crisis communication management
- Case Study: Brussels Airport security recovery after terrorist attacks

Module 5: Aviation Cybersecurity and Emerging Threats

- Aviation cybersecurity risks
- Insider threat prevention
- Drone threat management
- Artificial intelligence in aviation security
- Emerging global security challenges
- Case Study: Gatwick Airport drone disruption response

Module 6: Security Operations and Performance Excellence

- Security operations management
- Performance measurement
- Security audits and inspections
- Continuous improvement techniques
- Operational resilience strategies
- Case Study: Security performance excellence at Dubai International Airport

Module 7: Stakeholder Collaboration and Security Culture

- Building security culture
- Multi-agency coordination
- Public-private partnerships
- Employee engagement strategies
- Security awareness programs
- Case Study: Collaborative security model at Amsterdam Schiphol Airport

Module 8: Future Aviation Security Leadership

- Strategic security planning
- Innovation in aviation security
- Leadership succession planning
- Change management
- Future aviation security trends
- Case Study: Aviation security innovation at Hamad International Airport

Training Methodology

- Interactive expert-led presentations
- Group discussions and peer learning
- Leadership simulations
- Airport security case study analysis
- Practical risk assessment workshops
- Crisis management exercises
- Regulatory compliance reviews
- Team-based problem-solving activities
- Security performance evaluation exercises
- Action planning and implementation sessions

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.
f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Online	$1,000

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
