Target Audience

1. Contact Center Managers
2. Customer Support Supervisors
3. Quality Assurance Analysts
4. Call Center Agents
5. Training and Development Managers
6. Compliance Officers
7. Operations Managers
8. IT & Systems Administrators

Course Modules

Module 1: Introduction to Call Recording Systems

- Overview of call recording technologies
- Cloud and on-premise solutions
- Compliance and legal considerations
- Recording best practices for quality assurance
- **Case Study:** Implementing GDPR-compliant call recording in a multinational organization

Module 2: Quality Monitoring Fundamentals

- Key metrics for quality evaluation
- Developing scorecards and evaluation forms
- Real-time and post-call monitoring
- Common quality gaps and corrective strategies
- **Case Study:** Improving agent performance using scorecards

Module 3: Advanced Speech Analytics

- Understanding voice sentiment analysis
- Keyword spotting and automated tagging
- Integrating AI-driven analytics for insights
- Identifying trends and customer behavior patterns
- **Case Study:** Leveraging speech analytics to boost upsell conversions

Module 4: Regulatory Compliance & Data Security

- GDPR, HIPAA, and PCI DSS overview
- Ensuring secure storage and retrieval
- Access control and audit trails
- Privacy-compliant call handling
- **Case Study:** PCI DSS compliance implementation in a financial services call center

Module 5: Real-Time Monitoring & Coaching

- Live call monitoring techniques
- Whisper and barge-in features
- Instant feedback for agents
- Structured coaching sessions
- **Case Study:** Reducing average handling time through real-time interventions

Module 6: Performance Analytics & Reporting

- Generating dashboards and reports
- Identifying KPIs for agent and team performance
- Data visualization for management insights
- Predictive analytics for performance improvement
- **Case Study:** Implementing a KPI-driven reporting framework in a BPO

Module 7: Omnichannel Quality Monitoring

- Monitoring calls, chats, emails, and social media
- Unified quality evaluation across channels
- Analyzing multi-channel customer journeys
- Enhancing cross-channel customer experience
- **Case Study:** Boosting NPS scores through omnichannel quality monitoring

Module 8: Implementation & Optimization Strategies

- Best practices for tool deployment
- Change management and adoption strategies

- Continuous improvement with monitoring insights
- Case-driven approaches for business transformation
- **Case Study:** Scaling call monitoring tools in a global enterprise

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.
