|----------|---------------------------|---------------|-------------------------|
| Category | Human Resource Management | Duration      | 5 Days                  |
| Base Fee | \$1,500 USD               | Delivery Mode | Online / On-site Hybrid |

### Course Introduction

In today’s data-driven corporate world, organizations are increasingly leveraging Employee Lifecycle Analytics (ELA) to optimize workforce performance, improve retention, and drive strategic human resource decisions. Employee Lifecycle Analytics Training Course empowers HR professionals, managers, and data analysts to harness advanced analytics, predictive modeling, and data visualization techniques across the entire employee lifecycle from recruitment and onboarding to engagement, performance management, and exit strategies. By applying real-world HR datasets, participants will uncover actionable insights, identify trends, and make evidence-based decisions that enhance organizational productivity and employee satisfaction.

This comprehensive program emphasizes the integration of HR metrics, people analytics, and employee experience analytics to deliver measurable outcomes. Participants will gain hands-on experience with modern analytics tools, data storytelling, and key performance indicators (KPIs) critical for workforce planning. Through interactive sessions, case studies, and scenario-based exercises, learners will develop the capability to predict turnover, boost engagement, and align human capital strategies with overall business goals. By the end of this course, participants will be adept at transforming raw HR data into strategic insights that drive organizational success.

### Programme Curriculum

#### Employee Lifecycle Analytics Training Course

##### Introduction

In today’s data-driven corporate world, organizations are increasingly leveraging Employee Lifecycle Analytics (ELA) to optimize workforce performance, improve retention, and drive strategic human resource decisions. Employee Lifecycle Analytics Training Course empowers HR professionals, managers, and data analysts to

harness advanced analytics, predictive modeling, and data visualization techniques across the entire employee lifecycle from recruitment and onboarding to engagement, performance management, and exit strategies. By applying real-world HR datasets, participants will uncover actionable insights, identify trends, and make evidence-based decisions that enhance organizational productivity and employee satisfaction.

This comprehensive program emphasizes the integration of HR metrics, people analytics, and employee experience analytics to deliver measurable outcomes. Participants will gain hands-on experience with modern analytics tools, data storytelling, and key performance indicators (KPIs) critical for workforce planning. Through interactive sessions, case studies, and scenario-based exercises, learners will develop the capability to predict turnover, boost engagement, and align human capital strategies with overall business goals. By the end of this course, participants will be adept at transforming raw HR data into strategic insights that drive organizational success.

### **Course Duration**

5 days

### **Course Objectives**

1. Master Employee Lifecycle Analytics to optimize talent management.
2. Apply predictive analytics to forecast employee turnover and retention.
3. Utilize HR metrics and KPIs for data-driven decision-making.
4. Leverage data visualization tools to communicate HR insights effectively.
5. Enhance employee engagement through actionable analytics.
6. Integrate people analytics into strategic workforce planning.
7. Implement performance analytics to improve productivity.
8. Analyze recruitment and onboarding data for better hiring outcomes.
9. Identify skill gaps and design targeted learning programs.
10. Measure employee experience to boost retention and satisfaction.
11. Conduct exit analytics to understand attrition patterns.
12. Apply case study methodologies for practical learning.
13. Build HR dashboards for real-time workforce insights.

### **Target Audience**

1. HR managers and HR business partners
2. Talent acquisition specialists
3. Learning and development professionals
4. HR analysts and data specialists
5. People operations managers
6. Organizational development consultants
7. Business leaders and managers
8. Workforce planning and analytics teams

### **Course Modules**

#### **Module 1: Introduction to Employee Lifecycle Analytics**

- Overview of ELA and HR analytics trends
- Understanding the employee lifecycle stages
- Importance of data-driven HR decisions

- Key HR metrics and KPIs
- Case Study: Global IT firm reduces attrition by 15% using lifecycle insights

## **Module 2: Recruitment Analytics**

- Analyzing recruitment funnel and hiring metrics
- Time-to-hire and cost-per-hire optimization
- Candidate sourcing and pipeline analysis
- Predictive hiring analytics
- Case Study: Tech startup improves quality of hire by 20%

## **Module 3: Onboarding and Early Engagement Analytics**

- Employee onboarding effectiveness metrics
- Early engagement and assimilation tracking
- Personalized onboarding strategies
- Using surveys and feedback for predictive insights
- Case Study: Retail chain increases first-year retention by 12%

## **Module 4: Performance and Productivity Analytics**

- Defining performance KPIs
- Linking performance data to business outcomes
- Identifying high performers and performance gaps
- Advanced dashboards and reporting techniques
- Case Study: Manufacturing company boosts team productivity by 18%

## **Module 5: Learning and Development Analytics**

- Measuring learning program effectiveness
- Identifying skill gaps and upskilling opportunities
- ROI of training interventions
- Learning path optimization with predictive analytics
- Case Study: Pharma company reduces skill gaps by 25%

## **Module 6: Employee Engagement and Retention Analytics**

- Engagement surveys and sentiment analysis
- Predicting attrition risk using analytics
- Actionable insights for retention strategies
- Linking engagement with performance and productivity
- Case Study: Financial services firm decreases voluntary turnover by 10%

## **Module 7: Compensation, Benefits, and Recognition Analytics**

- Analyzing compensation fairness and equity
- Benefits utilization and satisfaction metrics
- Recognition program effectiveness
- Predicting impact on engagement and retention
- Case Study: Multinational improves retention using reward analytics

## **Module 8: Exit and Succession Analytics**

- Understanding attrition patterns and root causes
- Predicting potential flight risks
- Knowledge retention and succession planning
- Optimizing exit interviews and analytics
- Case Study: Tech company reduces key talent loss by 14%

## Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.
