Governance in Real Estate Investment Training Course

Professional Development Training Course Outline

Category	Corporate Governance	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Governance of Research Ethics Training Course provides an in-depth exploration of the ethical, legal, and regulatory frameworks governing research activities across institutions and industries. Participants will gain advanced knowledge on research integrity, compliance, human subject protections, and the establishment of effective ethics committees. This course emphasizes the critical role of governance in promoting responsible research, ensuring transparency, and mitigating risks associated with ethical violations. Strong focus is placed on international guidelines, national regulations, and emerging trends in research ethics, enabling participants to navigate complex ethical landscapes confidently.

This course combines theoretical foundations with practical case studies, interactive discussions, and applied exercises to strengthen participants' decision-making and leadership skills in research ethics governance. Participants will learn to evaluate ethical dilemmas, implement robust compliance strategies, and foster a culture of accountability and integrity within research organizations. The training is designed for researchers, administrators, ethics committee members, and policy developers who aim to align their research practices with global ethical standards.

Programme Curriculum

Governance of Research Ethics Training Course

Introduction

Governance of Research Ethics Training Course provides an in-depth exploration of the ethical, legal, and regulatory frameworks governing research activities across institutions and industries. Participants will gain advanced knowledge on research integrity, compliance, human subject protections, and the establishment of effective ethics committees. This course emphasizes the critical role of governance in promoting responsible research, ensuring transparency, and mitigating risks associated with ethical violations. Strong focus is placed

on international guidelines, national regulations, and emerging trends in research ethics, enabling participants to navigate complex ethical landscapes confidently.

This course combines theoretical foundations with practical case studies, interactive discussions, and applied exercises to strengthen participants' decision-making and leadership skills in research ethics governance. Participants will learn to evaluate ethical dilemmas, implement robust compliance strategies, and foster a culture of accountability and integrity within research organizations. The training is designed for researchers, administrators, ethics committee members, and policy developers who aim to align their research practices with global ethical standards.

Course Objectives

By the end of this training, participants will be able to:

1. Understand the principles and frameworks of research ethics governance.
2. Analyze ethical challenges and dilemmas in research design and implementation.
3. Apply international and national guidelines to research activities.
4. Develop policies for human subject protections and informed consent.
5. Establish and manage effective institutional review boards (IRBs) and ethics committees.
6. Implement strategies to prevent research misconduct and ensure compliance.
7. Integrate risk management and accountability measures in research governance.
8. Evaluate the role of transparency and reporting mechanisms in research ethics.
9. Promote a culture of integrity and ethical awareness in research teams.
10. Assess the impact of emerging technologies and AI on research ethics.
11. Facilitate training and capacity building for ethical research practices.
12. Conduct audits and monitoring of research projects for ethical compliance.
13. Design and implement corrective action plans for ethical breaches.

Organizational Benefits

- Strengthened institutional credibility and reputation in research practices.
- Enhanced compliance with national and international ethical standards.
- Reduction of legal and regulatory risks associated with research misconduct.
- Improved decision-making in research ethics and governance.
- Increased awareness and capability of research staff in ethical practices.
- Standardized procedures for handling ethical dilemmas.
- Robust monitoring and reporting mechanisms for research activities.
- Promotion of transparency and trust among stakeholders.
- Greater alignment of research objectives with societal and organizational values.
- Improved capacity to adopt emerging technologies responsibly in research.

Target Audiences

- Researchers and scientists in academia and industry
- Ethics committee members and institutional review board members
- Research administrators and coordinators
- Policy makers and regulators in research oversight

- Graduate students involved in research programs
- Healthcare and clinical trial coordinators
- Corporate research managers and compliance officers
- Non-governmental organization (NGO) research teams

Course Duration: 5 days

Course Modules

Module 1: Introduction to Research Ethics Governance

- Definition and scope of research ethics
- Historical overview of research ethics frameworks
- International guidelines and standards (e.g., Declaration of Helsinki, CIOMS)
- Role of governance in research integrity
- Case study: Analysis of a research ethics violation in clinical trials
- Practical exercise: Mapping institutional governance structures

Module 2: Ethical Principles in Human Subject Research

- Respect for persons, beneficence, and justice principles
- Informed consent processes and documentation
- Vulnerable populations and special considerations
- Risk-benefit analysis in research design
- Case study: Ethical challenges in pediatric research
- Group activity: Drafting informed consent templates

Module 3: Regulatory Frameworks and Compliance

- National and international research regulations
- Institutional policies and procedures
- Licensing, approvals, and ethical certifications
- Monitoring and reporting obligations
- Case study: Regulatory non-compliance in pharmaceutical research
- Exercise: Compliance checklist creation

Module 4: Institutional Review Boards (IRBs) and Ethics Committees

- Composition and responsibilities of IRBs
- Review and approval processes
- Conflict of interest management
- Monitoring ongoing research projects
- Case study: IRB decision-making in high-risk studies

- Simulation: Conducting an IRB review

Module 5: Research Misconduct and Prevention Strategies

- Definition of research misconduct (fabrication, falsification, plagiarism)
- Detection and reporting mechanisms
- Institutional policies for misconduct investigations
- Corrective and preventive actions
- Case study: High-profile research misconduct case analysis
- Workshop: Developing misconduct prevention strategies

Module 6: Data Management and Confidentiality

- Principles of data protection and confidentiality
- Secure storage and handling of research data
- Ethical use of participant data
- Privacy laws and regulations (e.g., GDPR, HIPAA)
- Case study: Breach of confidentiality in clinical trials
- Activity: Creating a data management plan

Module 7: Emerging Challenges in Research Ethics

- Ethics in AI and digital research
- Social media and participant engagement
- Multinational and cross-cultural ethical considerations
- Intellectual property and authorship disputes
- Case study: Ethical dilemmas in AI-driven research
- Group discussion: Addressing emerging ethical issues

Module 8: Leadership, Training, and Capacity Building

- Developing institutional ethics training programs
- Building a culture of integrity
- Leadership in research ethics governance
- Audit and monitoring strategies for ongoing compliance
- Case study: Successful ethics capacity-building program
- Workshop: Designing a training plan for research staff

Training Methodology

- Interactive lectures and presentations

- Case study analysis and group discussions
- Hands-on exercises and simulations
- Policy and document review workshops
- Role plays for ethics committee scenarios
- Evaluation and feedback sessions

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.
f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Online	$1,000
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
