Governance of Carbon and Climate Risks Training Course

Professional Development Training Course Outline

Category	Corporate Governance	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Governance of Carbon and Climate Risks Training Course is designed to equip professionals, policymakers, and corporate leaders with a comprehensive understanding of carbon management, climate-related risks, and regulatory frameworks. Participants will gain advanced knowledge on climate change mitigation strategies, carbon accounting, risk assessment, and reporting standards. The course emphasizes practical implementation, sustainable governance, and compliance with global climate policies, making it an essential program for those seeking to navigate the rapidly evolving climate governance landscape.

As climate-related risks increasingly impact business continuity, investment decisions, and regulatory compliance, organizations must adopt proactive strategies for carbon governance and climate resilience. This training provides participants with actionable insights into risk assessment methodologies, climate scenario analysis, ESG integration, and stakeholder engagement. Through case studies, interactive modules, and evidence-based approaches, learners will be empowered to make informed decisions that align with international climate goals, drive sustainable growth, and strengthen organizational resilience.

Programme Curriculum

Governance of Carbon and Climate Risks Training Course

Introduction

Governance of Carbon and Climate Risks Training Course is designed to equip professionals, policymakers, and corporate leaders with a comprehensive understanding of carbon management, climate-related risks, and regulatory frameworks. Participants will gain advanced knowledge on climate change mitigation strategies, carbon accounting, risk assessment, and reporting standards. The course emphasizes practical implementation, sustainable governance, and compliance with global climate policies, making it an essential program for those seeking to navigate the rapidly evolving climate governance landscape.

As climate-related risks increasingly impact business continuity, investment decisions, and regulatory compliance, organizations must adopt proactive strategies for carbon governance and climate resilience. This training provides participants with actionable insights into risk assessment methodologies, climate scenario analysis, ESG integration, and stakeholder engagement. Through case studies, interactive modules, and evidence-based approaches, learners will be empowered to make informed decisions that align with international climate goals, drive sustainable growth, and strengthen organizational resilience.

Course Objectives

1. Understand the fundamentals of carbon governance and climate risk management.
2. Analyze global climate regulations and reporting standards.
3. Identify key drivers of carbon emissions in corporate operations.
4. Develop strategies for carbon footprint reduction and net-zero initiatives.
5. Implement climate risk assessment and scenario analysis.
6. Evaluate financial and operational impacts of climate-related risks.
7. Integrate ESG considerations into organizational decision-making.
8. Design climate-resilient strategies for sustainable business growth.
9. Enhance stakeholder engagement on carbon and climate issues.
10. Apply best practices in carbon disclosure and sustainability reporting.
11. Assess emerging climate policies and market-based instruments.
12. Benchmark organizational performance against international climate goals.
13. Build capacity for proactive climate risk governance and compliance.

Organizational Benefits

- Strengthened climate risk management frameworks
- Improved ESG compliance and reporting accuracy
- Enhanced corporate reputation through sustainability leadership
- Better alignment with international climate commitments
- Reduced financial and operational exposure to climate risks
- Data-driven decision-making on carbon mitigation strategies
- Increased stakeholder confidence and transparency
- Improved strategic planning for climate resilience
- Competitive advantage in low-carbon markets
- Capacity building for long-term sustainability initiatives

Target Audiences

1. Corporate sustainability officers and managers
2. Risk management professionals
3. Environmental consultants and analysts
4. Policymakers and regulatory officials
5. Financial and investment managers
6. Climate strategy advisors
7. Energy sector professionals
8. Non-governmental organizations (NGOs) working in climate policy

Course Duration: 5 days

Course Modules

Module 1: Introduction to Carbon Governance

- Overview of carbon management frameworks
- Principles of climate governance
- Regulatory compliance requirements
- Organizational responsibilities in climate risk
- Case Study: Carbon governance in multinational corporations
- Practical exercises on carbon footprint calculation

Module 2: Climate Risk Assessment

- Identifying physical and transitional risks
- Risk prioritization methodologies
- Scenario analysis techniques
- Integration of risk into strategic planning
- Case Study: Climate risk assessment in energy sector
- Interactive workshop on risk mapping

Module 3: Carbon Accounting and Reporting

- Understanding carbon accounting standards
- Measurement of organizational emissions
- Reporting frameworks and disclosure requirements

- Data collection and verification methods
- Case Study: Carbon disclosure in financial institutions
- Hands-on reporting exercises

Module 4: ESG Integration and Governance

- Linking ESG factors to climate risk
- Corporate governance frameworks for sustainability
- ESG reporting and benchmarking
- Internal controls and compliance
- Case Study: ESG-driven decision-making in manufacturing
- Group activity on ESG policy development

Module 5: Regulatory and Policy Landscape

- International climate agreements (e.g., Paris Agreement)
- National climate policies and regulations
- Carbon pricing mechanisms and incentives
- Policy compliance strategies
- Case Study: Policy impact on corporate operations
- Simulation exercise on regulatory decision-making

Module 6: Climate Scenario Analysis

- Understanding scenario planning methods
- Projecting climate impacts on operations
- Quantitative and qualitative scenario tools
- Integration with business strategy
- Case Study: Scenario analysis in transportation sector
- Group discussion on scenario outcomes

Module 7: Stakeholder Engagement and Communication

- Strategies for stakeholder identification
- Effective communication of climate risks
- Collaborative approaches for climate action
- Reporting to shareholders and investors

- Case Study: Stakeholder engagement in renewable energy projects
- Workshop on communication strategies

Module 8: Low-Carbon Transition and Net-Zero Strategies

- Carbon reduction planning
- Renewable energy adoption and efficiency improvements
- Net-zero roadmaps and targets
- Investment in low-carbon technologies
- Case Study: Corporate net-zero transition plan
- Hands-on exercise on action plan development

Training Methodology

- Interactive lectures and presentations
- Case study analysis and group discussions
- Practical exercises and simulations
- Workshops on carbon footprint calculation and ESG reporting
- Scenario planning exercises and risk mapping
- Expert-led Q&A sessions and knowledge sharing
- Continuous assessment through assignments and feedback
- Use of climate data tools and software for hands-on learning

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Online	$1,000
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
