Humanitarian Health Response Training Course

Professional Development Training Course Outline

Category	Public Health	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Humanitarian Health Response is a critical discipline focused on delivering rapid, effective, and equitable healthcare services during crises such as natural disasters, conflicts, epidemics, and displacement events. Humanitarian Health Response Training Course is designed to build high-impact emergency response capacity, strengthen global health security, and enhance the ability of professionals to operate in resource-limited, high-pressure environments. It integrates modern humanitarian principles, emergency medicine, epidemic preparedness, and coordinated multi-agency response systems.

In today’s increasingly complex global landscape marked by climate-related disasters, pandemics, forced migration, and fragile health systems there is a growing demand for skilled responders trained in disaster risk reduction (DRR), emergency health logistics, outbreak response, and crisis coordination. This course equips learners with practical competencies aligned with WHO standards, Sphere guidelines, and current global humanitarian health priorities.

Programme Curriculum

Humanitarian Health Response Training Course

Introduction

Humanitarian Health Response is a critical discipline focused on delivering rapid, effective, and equitable healthcare services during crises such as natural disasters, conflicts, epidemics, and displacement events. Humanitarian Health Response Training Course is designed to build high-impact emergency response capacity, strengthen global health security, and enhance the ability of professionals to operate in resource-limited, high-pressure environments. It integrates modern humanitarian principles, emergency medicine, epidemic preparedness, and coordinated multi-agency response systems.

In today’s increasingly complex global landscape marked by climate-related disasters, pandemics, forced migration, and fragile health systems there is a growing demand for skilled responders trained in disaster risk

reduction (DRR), emergency health logistics, outbreak response, and crisis coordination. This course equips learners with practical competencies aligned with WHO standards, Sphere guidelines, and current global humanitarian health priorities.

Course Duration

5 days

Course Objectives

1. Understand principles of Humanitarian Health Systems Strengthening
2. Apply Emergency Medical Response (EMR) protocols in crisis zones
3. Develop competencies in Disaster Risk Reduction (DRR) strategies
4. Implement Outbreak and Epidemic Response Management
5. Strengthen WASH (Water, Sanitation, and Hygiene) interventions in emergencies
6. Coordinate Multi-Agency Humanitarian Logistics and Supply Chains
7. Conduct Rapid Health Needs Assessments (RHNA)
8. Apply Sphere Standards in Humanitarian Response
9. Enhance Global Health Security (GHS) preparedness
10. Manage Mass Casualty Incidents (MCI) effectively
11. Integrate Mental Health and Psychosocial Support (MHPSS) in emergencies
12. Strengthen Community-Based Health Emergency Response Systems
13. Improve Climate-Resilient Health Emergency Preparedness

Target Audience

1. Public health professionals
2. Emergency medical responders (EMTs, paramedics, doctors)
3. NGO and humanitarian aid workers
4. Disaster management officers
5. Military medical corps personnel
6. Epidemiologists and disease surveillance officers
7. Community health workers
8. Policy makers in health and emergency preparedness

Course Modules

Module 1: Foundations of Humanitarian Health Response

- Principles of humanitarian action (humanity, neutrality, impartiality)
- Global health emergency frameworks (WHO, Sphere)
- Types of disasters and health impacts
- Coordination structures (UN OCHA, cluster system)
- Ethical considerations in crisis response
- **Case Study:** Ebola outbreak response in West Africa (coordination failures vs improvements)

Module 2: Disaster Risk Reduction & Preparedness

- Hazard identification and vulnerability mapping
- Early warning systems and surveillance
- Community resilience building
- Climate-related disaster preparedness

- National disaster response planning
- **Case Study:** Cyclone Idai response in Mozambique

Module 3: Emergency Medical Response (EMR)

- Triage systems (START, mass casualty sorting)
- Trauma care in low-resource settings
- Field hospital setup and operations
- Pre-hospital emergency care
- Rapid stabilization protocols
- **Case Study:** Earthquake emergency response in Haiti

Module 4: Outbreak & Epidemic Response

- Disease surveillance systems
- Contact tracing and case management
- Vaccination campaigns in emergencies
- Infection prevention and control (IPC)
- Risk communication strategies
- **Case Study:** COVID-19 emergency health response systems

Module 5: WASH in Humanitarian Settings

- Emergency water supply systems
- Sanitation infrastructure in camps
- Hygiene promotion strategies
- Cholera prevention and control
- Environmental health risk mitigation
- **Case Study:** Rohingya refugee camps WASH intervention in Bangladesh

Module 6: Humanitarian Logistics & Supply Chain

- Medical supply chain management
- Cold chain systems for vaccines
- Procurement in emergency settings
- Stockpile and distribution planning
- Transport in insecure environments
- **Case Study:** Syrian conflict humanitarian supply corridors

Module 7: Mental Health & Psychosocial Support (MHPSS)

- Psychological first aid (PFA)
- Trauma-informed care
- Stress management for responders
- Community healing approaches
- Protection of vulnerable groups
- **Case Study:** Post-tsunami mental health interventions in Japan

Module 8: Coordination, Leadership & Field Operations

- Incident command systems (ICS)
- Multi-agency coordination mechanisms

- Leadership in crisis environments
- Security and access negotiation
- Reporting and accountability systems
- **Case Study:** UN coordinated response in South Sudan conflict zones

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price

23 Nov 2026	27 Nov 2026	Online	$1,000
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
