Integrated Reporting Framework Training Course

Professional Development Training Course Outline

Category	ACCOUNTING & FINANCE	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Integrated Reporting Framework Training Course is designed to equip professionals with advanced knowledge and practical competencies in integrated thinking, sustainability reporting, ESG reporting, corporate governance, value creation, stakeholder engagement, financial transparency, and strategic performance management. The course provides participants with globally recognized methodologies and best practices aligned with the principles of integrated reporting, enabling organizations to communicate financial and non-financial performance effectively. Participants will gain practical exposure to integrated reporting standards, sustainability disclosures, environmental, social, and governance metrics, risk management integration, and business resilience frameworks that support long-term organizational sustainability and investor confidence.

This highly practical and industry-oriented training course emphasizes strategic reporting, digital transformation in reporting systems, integrated performance measurement, accountability frameworks, corporate sustainability strategies, and enterprise value reporting. Participants will learn how to align organizational objectives with integrated reporting principles to improve transparency, strengthen stakeholder trust, enhance decision-making, and support sustainable growth. The course also explores emerging global trends in ESG compliance, climate-related disclosures, sustainable finance, data-driven reporting systems, and integrated governance models that are shaping modern organizations across both public and private sectors.
