Interior Architecture Design Training Course

Professional Development Training Course Outline

Category	Architectural Engineering	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Interior Architecture Design is a rapidly evolving discipline that blends spatial planning, aesthetic innovation, sustainable design, and human-centered environments. Interior Architecture Design Training Course is designed to equip learners with advanced skills in 3D space visualization, BIM integration, luxury interior styling, ergonomic planning, and modern construction detailing. With the rising demand for smart homes, sustainable interiors, and experiential commercial spaces, professionals are expected to master both creative design thinking and technical execution.

This program provides a comprehensive pathway into the world of professional interior architecture, focusing on real-world applications such as residential layouts, corporate interiors, hospitality environments, and retail spatial branding. Learners will gain expertise in AutoCAD, SketchUp, Revit, lighting design, material selection, and AI-assisted interior visualization, enabling them to meet global industry standards and deliver cutting-edge interior solutions.

Programme Curriculum

Interior Architecture Design Training Course

Introduction

Interior Architecture Design is a rapidly evolving discipline that blends spatial planning, aesthetic innovation, sustainable design, and human-centered environments. Interior Architecture Design Training Course is designed to equip learners with advanced skills in 3D space visualization, BIM integration, luxury interior styling, ergonomic planning, and modern construction detailing. With the rising demand for smart homes, sustainable interiors, and experiential commercial spaces, professionals are expected to master both creative design thinking and technical execution.

This program provides a comprehensive pathway into the world of professional interior architecture, focusing on real-world applications such as residential layouts, corporate interiors, hospitality environments, and retail spatial branding. Learners will gain expertise in AutoCAD, SketchUp, Revit, lighting design, material selection, and AI-assisted interior visualization, enabling them to meet global industry standards and deliver cutting-edge interior solutions.

Course Duration

5 days

Course Objectives

1. Master space planning and spatial optimization techniques
2. Develop skills in 3D modeling and architectural visualization
3. Understand modern interior design principles and trends
4. Apply sustainable and eco-friendly design solutions
5. Learn BIM (Building Information Modeling) integration
6. Gain expertise in lighting design and ambiance creation
7. Enhance knowledge of material selection and texture mapping
8. Build competency in residential interior design workflows
9. Design commercial and office interior environments
10. Explore luxury and contemporary interior styling
11. Utilize AI tools in interior architecture design
12. Improve client presentation and design storytelling skills
13. Prepare for professional interior architecture certification and freelancing

Target Audience

1. Aspiring **Interior Designers**
2. Architecture students and graduates
3. Real estate developers
4. Construction and renovation professionals
5. Freelance designers and consultants
6. Urban planners and spatial designers
7. Hospitality and hotel design professionals
8. Creative artists entering 3D design fields

Course Modules

Module 1: Fundamentals of Interior Architecture

- Principles of design (balance, rhythm, proportion)
- Space planning basics
- Human ergonomics in design
- Introduction to architectural drafting
- Case Study: Modern studio apartment optimization

Module 2: CAD & Technical Drawing

- AutoCAD for interior layouts
- Technical floor plan creation
- Section and elevation drawings

- Dimensioning and scaling standards
- Case Study: Office layout drafting project

Module 3: 3D Modeling & Visualization

- SketchUp and Revit fundamentals
- 3D space creation techniques
- Rendering realistic interiors
- Camera and lighting setup
- Case Study: Luxury living room visualization

Module 4: Material & Texture Design

- Surface materials and finishes
- Color psychology in interiors
- Fabric, wood, and metal applications
- Sustainable material selection
- Case Study: Eco-friendly café interior design

Module 5: Lighting & Ambience Design

- Natural vs artificial lighting systems
- Mood lighting techniques
- LED and smart lighting integration
- Shadow and reflection control
- Case Study: Boutique hotel lighting design

Module 6: Residential Interior Design

- Home zoning and planning
- Kitchen and bathroom design standards
- Bedroom and living area styling
- Smart home integration
- Case Study: Modern villa interior transformation

Module 7: Commercial & Retail Spaces

- Office workflow optimization
- Brand-driven interior design
- Retail display psychology
- Customer experience design
- Case Study: Fashion retail store layout redesign

Module 8: Advanced Design & AI Integration

- AI-assisted interior design tools
- Parametric and generative design
- Virtual reality walkthroughs
- Client presentation techniques
- Case Study: AI-generated smart workspace design

Training Methodology

This course employs a participatory and hands-on approach to ensure practical learning, including:

- Interactive lectures and presentations.
- Group discussions and brainstorming sessions.
- Hands-on exercises using real-world datasets.
- Role-playing and scenario-based simulations.
- Analysis of case studies to bridge theory and practice.
- Peer-to-peer learning and networking.
- Expert-led Q&A sessions.
- Continuous feedback and personalized guidance.

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Online	$1,000
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
