Investment Governance and Fiduciary Risk Training Course

Professional Development Training Course Outline

Category	Risk Management	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

The modern investment landscape is defined by systemic risk, heightened regulatory scrutiny, and the increasing integration of ESG (Environmental, Social, and Governance) factors. Effective investment governance is no longer a check-the-box exercise but a critical determinant of long-term investment success and the fulfillment of fiduciary duty. Investment Governance and Fiduciary Risk Training Course addresses the essential frameworks, policies, and practices required to navigate this environment, ensuring alignment between investment strategy, organizational values, and legal compliance. It moves beyond theoretical concepts to provide actionable insights into establishing and auditing robust governance structures, managing delegation, and mitigating complex fiduciary risk exposures, including those related to climate-related financial risk and cyber resilience.

This intensive program empowers financial professionals, trustees, and executives to implement a high-performance governance model. By focusing on the core principles of due diligence, transparency, and accountability, participants will master the skills needed to design a resilient Investment Policy Statement (IPS), effectively oversee third-party managers, and manage conflicts of interest. The curriculum is built around real-world case studies of fiduciary failures and best-practice implementation, enabling a proactive approach to risk mitigation, thereby protecting organizational assets and reputation while safeguarding the long-term interests of beneficiaries and stakeholders.

4. ESG and Sustainable Fiduciary Practices

- The legal interpretation
- Implementing Double Materiality and addressing both 'inside-out' and 'outside-in' impacts.
- SFDR, TCFD/ISSB, and the shift towards mandatory disclosure.
- Managing Greenwashing Risk through robust due diligence on fund labels and claims.
- Case Study: Fiduciary committee debate on divesting from a high-carbon sector analyzing the financial and reputational implications of the decision.

5. Delegated Fiduciary Management and Oversight

- Structuring the relationship.
- Establishing a rigorous Manager Selection and Request for Proposal process.
- Defining clear Delegation Boundaries and maintaining oversight rights.
- Performance Monitoring beyond raw returns.
- Case Study: Analyzing a flawed OCIO mandate where the fee structure and performance benchmark created misaligned incentives.

6. Managing Conflicts of Interest and Prohibited Transactions

- Defining and identifying actual, potential, and perceived Conflicts of Interest in investment decisions.
- Establishing policies for disclosure, avoidance, and independent ratification of conflicts.
- Reviewing common problematic scenarios.
- The importance of an independent Investment Consultant and governance advisor.
- Case Study: A situation involving a trustee holding a board position at an asset management firm bidding for the fund's mandate.

7. Governance Audits and Continuous Improvement

- Designing and executing a comprehensive Investment Governance Audit program.
- Benchmarking governance practices against peer groups and global standards
- Developing effective Decision Records and robust meeting minutes for defensibility.
- Strategies for achieving a high-functioning, non-executional Investment Committee.
- Case Study: A regulatory review finding insufficient documentation and decision trails, leading to a penalty and required remediation plan.

8. Behavioral Finance and Governance Culture

- Understanding cognitive biases in group decision-making.
- Implementing "De-Biasing" techniques and protocols in committee meetings.
- Fostering a Culture of Proactive Risk Reporting and psychological safety.
- The role of executive leadership in setting the Tone from the Top on ethics and compliance.
- Case Study: A post-mortem of a panic-driven asset sale during a market downturn, driven by committee herding bias and lack of a pre-established protocol.
