PPP Governance and Institutional Frameworks Training Course

Professional Development Training Course Outline

Category	General Training	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Public-Private Partnerships Program Management Training Course provides a comprehensive framework for professionals responsible for planning, coordinating, implementing, monitoring, and improving Public-Private Partnerships programs. The course develops practical expertise in Public-Private Partnerships program governance, portfolio management, project prioritization, stakeholder engagement, risk management, financial management, procurement strategy, contract administration, performance monitoring, and institutional capacity building. Participants will explore modern Public-Private Partnerships management frameworks that support infrastructure development, service delivery, value for money, sustainable investment, and effective public-sector transformation.

The course emphasizes strategic Public-Private Partnerships program management across the complete project lifecycle, from pipeline development and feasibility assessment to procurement, financial close, implementation, monitoring, contract management, and post-project evaluation. Through practical exercises, international benchmarks, digital management approaches, and global case studies, participants will strengthen their ability to manage complex Public-Private Partnerships portfolios, improve accountability, optimize resources, manage emerging risks, and deliver measurable economic and social outcomes.

Programme Curriculum

Public-Private Partnerships Program Management Training Course

Introduction

Public-Private Partnerships Program Management Training Course provides a comprehensive framework for professionals responsible for planning, coordinating, implementing, monitoring, and improving Public-Private Partnerships programs. The course develops practical expertise in Public-Private Partnerships program

governance, portfolio management, project prioritization, stakeholder engagement, risk management, financial management, procurement strategy, contract administration, performance monitoring, and institutional capacity building. Participants will explore modern Public-Private Partnerships management frameworks that support infrastructure development, service delivery, value for money, sustainable investment, and effective public-sector transformation.

The course emphasizes strategic Public-Private Partnerships program management across the complete project lifecycle, from pipeline development and feasibility assessment to procurement, financial close, implementation, monitoring, contract management, and post-project evaluation. Through practical exercises, international benchmarks, digital management approaches, and global case studies, participants will strengthen their ability to manage complex Public-Private Partnerships portfolios, improve accountability, optimize resources, manage emerging risks, and deliver measurable economic and social outcomes.
