PPP Institutional Capacity Building Training Course

Professional Development Training Course Outline

Category	General Training	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Public-Private Partnerships Institutional Capacity Building Training Course provides a comprehensive framework for strengthening the institutional, organizational, governance, policy, legal, financial, and technical capabilities required to plan, develop, procure, implement, monitor, and manage successful Public-Private Partnerships. The course focuses on institutional capacity development, Public-Private Partnerships governance, regulatory frameworks, project management, risk management, stakeholder engagement, value for money, public-sector capability, and sustainable infrastructure delivery. Participants gain practical knowledge for building resilient Public-Private Partnerships institutions capable of managing complex infrastructure and public-service projects.

The programme integrates global best practices, digital transformation, strategic planning, institutional diagnostics, performance management, knowledge management, and evidence-based decision-making. Through practical exercises and international case studies, participants learn how to strengthen Public-Private Partnerships units, improve inter-agency coordination, develop competent project teams, establish accountability mechanisms, and enhance project delivery outcomes. The course supports organizations seeking to build long-term Public-Private Partnerships capability while improving transparency, efficiency, innovation, investment readiness, and sustainable development.

Programme Curriculum

Public-Private Partnerships Institutional Capacity Building Training Course

Introduction

Public-Private Partnerships Institutional Capacity Building Training Course provides a comprehensive framework for strengthening the institutional, organizational, governance, policy, legal, financial, and technical capabilities required to plan, develop, procure, implement, monitor, and manage successful Public-Private Partnerships. The course focuses on institutional capacity development, Public-Private Partnerships

governance, regulatory frameworks, project management, risk management, stakeholder engagement, value for money, public-sector capability, and sustainable infrastructure delivery. Participants gain practical knowledge for building resilient Public-Private Partnerships institutions capable of managing complex infrastructure and public-service projects.

The programme integrates global best practices, digital transformation, strategic planning, institutional diagnostics, performance management, knowledge management, and evidence-based decision-making. Through practical exercises and international case studies, participants learn how to strengthen Public-Private Partnerships units, improve inter-agency coordination, develop competent project teams, establish accountability mechanisms, and enhance project delivery outcomes. The course supports organizations seeking to build long-term Public-Private Partnerships capability while improving transparency, efficiency, innovation, investment readiness, and sustainable development.
