Provisions & Contingencies (IAS 37) Training Course

Professional Development Training Course Outline

Category	ACCOUNTING & FINANCE	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Provisions & Contingencies (IAS 37) is a critical financial reporting standard that ensures organizations recognize, measure, and disclose liabilities accurately in compliance with International Financial Reporting Standards. Provisions & Contingencies (IAS 37) Training Course provides in-depth knowledge on provisions, contingent liabilities, and contingent assets, equipping professionals with practical skills to apply IAS 37 in real-world financial environments. Participants will gain expertise in risk assessment, financial compliance, liability estimation, and audit readiness using globally accepted accounting frameworks.

With increasing regulatory scrutiny and the demand for transparent financial statements, organizations must adopt best practices in recognizing uncertain obligations and contingent risks. This training focuses on key areas such as legal liabilities, restructuring provisions, environmental obligations, and financial disclosure requirements. It integrates practical case studies, industry trends, and advanced financial analysis techniques to ensure learners develop high-demand accounting and financial reporting skills aligned with global standards.

Programme Curriculum

Provisions & Contingencies (IAS 37) Training Course

Introduction

Provisions & Contingencies (IAS 37) is a critical financial reporting standard that ensures organizations recognize, measure, and disclose liabilities accurately in compliance with International Financial Reporting Standards. Provisions & Contingencies (IAS 37) Training Course provides in-depth knowledge on provisions, contingent liabilities, and contingent assets, equipping professionals with practical skills to apply IAS 37 in real-world financial environments. Participants will gain expertise in risk assessment, financial compliance, liability

estimation, and audit readiness using globally accepted accounting frameworks.

With increasing regulatory scrutiny and the demand for transparent financial statements, organizations must adopt best practices in recognizing uncertain obligations and contingent risks. This training focuses on key areas such as legal liabilities, restructuring provisions, environmental obligations, and financial disclosure requirements. It integrates practical case studies, industry trends, and advanced financial analysis techniques to ensure learners develop high-demand accounting and financial reporting skills aligned with global standards.

Course Objectives
