Situational Crime Prevention Strategies Training Course

Professional Development Training Course Outline

Category	Criminology	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Situational Crime Prevention (SCP) is a proactive and evidence-based strategy that focuses on reducing opportunities for crime by modifying the immediate environment in which offenses occur. Training Course on Situational Crime Prevention Strategies empowers participants with the latest strategies, tools, and case studies to implement targeted crime prevention interventions across a range of environments including schools, urban areas, transportation hubs, and digital spaces. With a focus on crime mapping, behavioral analysis, and technological integration, the course delivers practical approaches to reduce criminal activity.

By leveraging crime prevention theory, data-driven security, and environmental design principles, this course offers essential insights for law enforcement professionals, urban planners, community leaders, security managers, and criminal justice students. Attendees will master actionable techniques to disrupt criminal behavior and enhance community safety through real-world applications and interactive learning.

Programme Curriculum

Situational Crime Prevention Strategies Training Course

Introduction

Situational Crime Prevention (SCP) is a proactive and evidence-based strategy that focuses on reducing opportunities for crime by modifying the immediate environment in which offenses occur. Situational Crime Prevention Strategies Training Course empowers participants with the latest strategies, tools, and case studies to implement targeted crime prevention interventions across a range of environments including schools, urban areas, transportation hubs, and digital spaces. With

a focus on crime mapping, behavioral analysis, and technological integration, the course delivers practical approaches to reduce criminal activity.

By leveraging crime prevention theory, data-driven security, and environmental design principles, this course offers essential insights for law enforcement professionals, urban planners, community leaders, security managers, and criminal justice students. Attendees will master actionable techniques to disrupt criminal behavior and enhance community safety through real-world applications and interactive learning.

Course Objectives

1. Understand the principles of Situational Crime Prevention.
2. Analyze opportunity reduction frameworks for crime control.
3. Apply CPTED (Crime Prevention Through Environmental Design) principles.
4. Identify risk factors using geospatial crime mapping.
5. Evaluate the cost-effectiveness of prevention strategies.
6. Design community-specific crime reduction plans.
7. Integrate technology and AI in crime prevention models.
8. Conduct security audits for high-risk environments.
9. Analyze patterns of repeat victimization.
10. Assess the impact of public surveillance and lighting strategies.
11. Use predictive analytics to anticipate criminal behavior.
12. Collaborate with multi-agency partners for integrated solutions.
13. Implement evidence-based solutions to real-world crime challenges.

Target Audiences

1. Law Enforcement Officers
2. Security Consultants
3. Urban Planners and Architects
4. Community Leaders
5. Criminal Justice Students
6. Policy Makers and Legislators
7. Nonprofit Safety Advocates
8. Correctional Program Coordinators

Course Duration: 5 days

Course Modules

Module 1: Foundations of Situational Crime Prevention

- Definition and scope of SCP
- Crime triangle and opportunity theory
- Rational choice theory and criminal decision-making
- The 25 techniques of SCP

- Barriers to effective implementation
- **Case Study:** New York City Subway Crime Reduction Initiative

Module 2: CPTED (Crime Prevention Through Environmental Design)

- Basic CPTED principles
- Access control and territorial reinforcement
- Maintenance and image
- Natural surveillance techniques
- Integrating CPTED in urban planning
- **Case Study:** Redesigning a Public Park in Chicago to Reduce Assaults

Module 3: Crime Mapping and Spatial Analysis

- Introduction to GIS in crime prevention
- Hotspot identification and predictive analysis
- Temporal and spatial crime patterns
- Real-time data integration
- Using mapping in community planning
- **Case Study:** Crime Mapping and Targeted Patrol in San Diego

Module 4: Technological Tools in SCP

- Surveillance systems and smart cameras
- Predictive policing software
- AI and machine learning in public safety
- Crime sensors and IoT for security
- Legal and ethical considerations
- **Case Study:** London's AI-Powered CCTV Deployment

Module 5: Reducing Repeat Victimization

- Understanding chronic victimization
- Data tracking and victim profiling
- Target hardening techniques
- Community support frameworks
- Role of police and social services
- **Case Study:** Operation Lighthouse: Domestic Abuse Prevention in Manchester

Module 6: Crime Prevention in Schools and Institutions

- School safety audits and access control
- Behavioral threat assessments
- Bullying prevention programs
- Role of SROs (School Resource Officers)
- Emergency response preparedness
- **Case Study:** School Crime Reduction through SCP in Los Angeles Unified School District

Module 7: Multi-Agency Crime Prevention Approaches

- Collaborative crime prevention planning
- Stakeholder roles and responsibilities
- Public-private partnerships
- Data sharing agreements
- Monitoring and evaluation metrics
- **Case Study:** Multi-Agency Taskforce to Reduce Burglary in Brisbane

Module 8: Designing and Implementing SCP Strategies

- Needs assessment and problem identification
- Prioritizing crime targets and resources
- Action planning and implementation timelines
- Community engagement and support
- Outcome measurement and evaluation
- **Case Study:** Integrated SCP Plan for Downtown Seattle

Training Methodology

- Interactive Lectures with real-world examples
- Group Discussions to encourage peer learning
- Hands-on GIS/Mapping Workshops
- Case Study Analysis for practical understanding
- Simulation Exercises for real-time decision-making
- Quizzes and Evaluations to assess comprehension

Certification

Upon successful completion of this training, participants will be issued with a globally- recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

a. The participant must be conversant with English.

b. Upon completion of training the participant will be issued with an Authorized Training Certificate

c. Course duration is flexible and the contents can be modified to fit any number of days.

d. The course fee includes facilitation training materials, 2 coffee breaks, buffet lunch and A Certificate upon successful completion of Training.

e. One-year post-training support Consultation and Coaching provided after the course.

f. Payment should be done at least a week before commence of the training, to Fineskill Training Center account, as indicated in the invoice so as to enable us prepare better for you.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Online	$1,000
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
