

Sustainable Development and Workers' Rights Training Course

Professional Development Training Course Outline

Category	Trade Unions	Duration	5 Days
Base Fee	\$1,500 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

Sustainable Development and Workers' Rights are now central pillars of global economic transformation, corporate accountability, and inclusive growth. In an era defined by ESG compliance, climate action, ethical supply chains, and decent work standards, organizations are under increasing pressure to align profitability with social justice and environmental stewardship. Sustainable Development and Workers' Rights Training Course is designed to build practical competencies in sustainability governance, labor rights protection, fair employment practices, and responsible business conduct, ensuring participants understand both global frameworks and local implementation strategies.

The course integrates key international standards such as ILO conventions, UN Sustainable Development Goals (SDGs), corporate ESG reporting frameworks, and human rights due diligence systems. Participants will explore real-world challenges such as forced labor prevention, gender equality in workplaces, occupational safety and health (OSH), living wages, and green economy transitions. By combining theory, policy, and case-based learning, this program equips professionals to drive impactful change in organizations, communities, and supply chains while promoting decent work, climate resilience, and sustainable economic development.

Programme Curriculum

Sustainable Development and Workers' Rights Training Course

Introduction

Sustainable Development and Workers' Rights are now central pillars of global economic transformation, corporate accountability, and inclusive growth. In an era defined by ESG compliance, climate action, ethical supply chains, and decent work standards, organizations are under increasing pressure to align profitability with social justice and environmental stewardship. Sustainable Development and Workers' Rights Training Course is

designed to build practical competencies in sustainability governance, labor rights protection, fair employment practices, and responsible business conduct, ensuring participants understand both global frameworks and local implementation strategies.

The course integrates key international standards such as ILO conventions, UN Sustainable Development Goals (SDGs), corporate ESG reporting frameworks, and human rights due diligence systems. Participants will explore real-world challenges such as forced labor prevention, gender equality in workplaces, occupational safety and health (OSH), living wages, and green economy transitions. By combining theory, policy, and case-based learning, this program equips professionals to drive impactful change in organizations, communities, and supply chains while promoting decent work, climate resilience, and sustainable economic development.
