Programme Curriculum

Training Course on Auditing Oil & Gas Industry Quality Management Systems

Introduction

Training Course on Auditing Oil & Gas Industry Quality Management Systemsis designed for professionals seeking to enhance their auditing skills and knowledge specific to the oil and gas sector. As the industry faces increasing regulatory pressures, maintaining high-quality standards is essential for operational excellence and compliance. This course provides participants with the tools and techniques necessary to effectively audit quality management systems (QMS), ensuring that organizations meet industry standards and best practices.

Through a combination of theoretical knowledge and practical applications, participants will learn how to conduct comprehensive audits, assess compliance with relevant standards, and identify areas for improvement. By the end of the program, attendees will have developed the skills required to perform effective audits that contribute to the continuous improvement of quality management systems within the oil and gas industry.

Course Objectives

1. Understand the principles of quality management systems in the oil and gas industry.
2. Familiarize with relevant standards, including ISO 9001 and industry-specific regulations.
3. Develop auditing skills and techniques tailored to the oil and gas sector.
4. Conduct effective internal and external audits of QMS.
5. Identify non-conformities and areas for improvement.
6. Communicate audit findings and recommendations effectively.

7. Implement corrective and preventive actions (CAPA).
8. Understand the role of risk management in quality audits.
9. Engage stakeholders in the auditing process.
10. Evaluate the effectiveness of QMS and audit outcomes.
11. Foster a culture of quality and continuous improvement.
12. Stay updated on emerging trends and technologies in quality management.
13. Prepare for certification audits and third-party assessments.

Target Audience

1. Quality Managers
2. Internal Auditors
3. Compliance Officers
4. Health, Safety, and Environment (HSE) Professionals
5. Operations Managers
6. Process Engineers
7. Regulatory Affairs Specialists
8. Graduate Students in Engineering or Quality Management

Course Duration: 5 Days

Course Modules

Module 1: Introduction to Quality Management Systems

- Overview of quality management principles.
- Importance of QMS in the oil and gas industry.
- Key components of a quality management system.
- Understanding the quality management lifecycle.
- Case studies of effective QMS implementation.

Module 2: Relevant Standards and Regulations

- Overview of ISO 9001 and its application in oil and gas.
- Understanding industry-specific regulations and guidelines.
- Compliance requirements for quality management.
- The role of standards in ensuring quality.
- Tools for staying compliant with regulations.

Module 3: Auditing Principles and Techniques

- Fundamentals of auditing concepts and methodologies.
- Types of audits: internal, external, and compliance.
- Planning and preparing for audits.
- Developing audit checklists and criteria.
- Practical exercises on audit preparation.

Module 4: Conducting Audits in the Oil & Gas Industry

- Techniques for effective audit execution.
- Observing operations and processes during audits.
- Engaging with personnel during audits.

- Documenting audit findings accurately.
- Role-playing scenarios for audit practice.

Module 5: Identifying Non-Conformities and Improvement Opportunities

- Techniques for identifying non-conformities during audits.
- Assessing the impact of non-conformities on QMS.
- Strategies for recommending improvements.
- Tools for root cause analysis.
- Case studies on addressing non-conformities.

Module 6: Communicating Audit Findings

- Best practices for reporting audit results.
- Structuring audit reports for clarity and impact.
- Presenting findings to stakeholders effectively.
- Strategies for facilitating discussions on audit outcomes.
- Real-world examples of effective communication.

Module 7: Corrective and Preventive Actions (CAPA)

- Understanding the CAPA process and its importance.
- Developing effective CAPA plans.
- Implementing corrective actions and monitoring effectiveness.
- Techniques for preventing recurrence of issues.
- Case studies on successful CAPA implementation.

Module 8: Continuous Improvement and Emerging Trends

- The role of continuous improvement in QMS.
- Techniques for fostering a culture of quality.
- Staying informed about industry trends and technologies.
- Preparing for certification audits and third-party assessments.
- Resources for ongoing professional development in quality management.

Training Methodology

- **Interactive Workshops:** Facilitated discussions, group exercises, and problem-solving activities.
- **Case Studies:** Real-world examples to illustrate successful community-based surveillance practices.
- **Role-Playing and Simulations:** Practice engaging communities in surveillance activities.
- **Expert Presentations:** Insights from experienced public health professionals and community leaders.
- **Group Projects:** Collaborative development of community surveillance plans.
- **Action Planning:** Development of personalized action plans for implementing community-based surveillance.
- **Digital Tools and Resources:** Utilization of online platforms for collaboration and learning.
- **Peer-to-Peer Learning:** Sharing experiences and insights on community engagement.
- **Post-Training Support:** Access to online forums, mentorship, and continued learning resources.

Certification

Upon successful completion of this training, participants will be issued with a globally recognized certificate.

Tailor-Made Course

We also offer tailor-made courses based on your needs.

Key Notes

- Participants must be conversant in English.
- Upon completion of training, participants will receive an Authorized Training Certificate.
- The course duration is flexible and can be modified to fit any number of days.
- Course fee includes facilitation, training materials, 2 coffee breaks, buffet lunch, and a Certificate upon successful completion.
- One-year post-training support, consultation, and coaching provided after the course.
- Payment should be made at least a week before the training commencement to Fineskill Training Center account, as indicated in the invoice, to enable better preparation.

Upcoming Scheduled Sessions

Start Date	End Date	Location	Price
23 Nov 2026	27 Nov 2026	Online	$1,000
23 Nov 2026	27 Nov 2026	Physical	$1,500
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$3,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$4,500
23 Nov 2026	27 Nov 2026	Physical	$6,000
23 Nov 2026	27 Nov 2026	Physical	$6,000
