Training Course on Currency Risk Management for Global Pension Portfolios

Professional Development Training Course Outline

Category	Pension and Retirement	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

Training Course on Currency Risk Management for Global Pension Portfolios is designed to provide professionals with the skills and knowledge necessary to effectively manage currency risk in multinational pension fund investments. As pension funds increasingly invest in global markets, understanding currency fluctuations and their impact on portfolio performance becomes crucial. This course focuses on the principles and practices of currency risk management, enabling participants to implement strategies that safeguard the value of international investments. Participants will explore key topics such as currency exposure, hedging techniques, regulatory considerations, and best practices in currency risk management. The curriculum integrates theoretical concepts with practical applications, featuring case studies and interactive exercises that allow attendees to engage with real-world scenarios. By the end of the training, participants will be well-equipped to implement effective currency risk management strategies that enhance the resilience of global pension portfolios.
