

Training Course on Financial Management for Non-Finance Education Leaders

Professional Development Training Course Outline

Category	Educational Leadership and Management	Duration	10 Days
Base Fee	\$3,000 USD	Delivery Mode	Online / On-site Hybrid

Course Introduction

In today's results-driven education environment, school administrators, department heads, and education leaders are increasingly expected to make financially sound decisions that align with strategic goals. Yet, many lack formal training in financial management. Training Course on Financial Management for Non-Finance Education Leaders bridges that knowledge gap by equipping education professionals with practical financial tools, budget literacy, and strategic planning skills to enhance institutional efficiency and sustainability.

Designed using real-world financial scenarios and simplified concepts, this course empowers non-finance education leaders to analyze financial data, manage budgets, and communicate with finance professionals confidently. With a focus on financial accountability, cost efficiency, and data-driven decisions, the course enables leaders to effectively plan, allocate, and report on financial resources across academic and operational departments.

Programme Curriculum

Training Course on Financial Management for Non-Finance Education Leaders

Introduction

In today's results-driven education environment, school administrators, department heads, and education leaders are increasingly expected to make financially sound decisions that align with strategic goals. Yet, many lack formal training in financial management. Training Course on Financial Management for Non-Finance Education Leaders bridges that knowledge gap by equipping education professionals with practical financial tools, budget literacy, and strategic planning skills to enhance institutional efficiency and sustainability.

Designed using real-world financial scenarios and simplified concepts, this course empowers non-finance education leaders to analyze financial data, manage budgets, and communicate with finance professionals confidently. With a focus

on financial accountability, cost efficiency, and data-driven decisions, the course enables leaders to effectively plan, allocate, and report on financial resources across academic and operational departments.

Course Objectives

By the end of the course, participants will:

1. Understand core financial principles and terminology.
2. Analyze and interpret basic financial statements.
3. Apply cost control techniques in education settings.
4. Develop and manage operational and strategic budgets.
5. Evaluate funding models for educational institutions.
6. Implement resource allocation strategies to maximize ROI.
7. Align financial management with institutional goals.
8. Assess risk and apply financial mitigation strategies.
9. Use financial data for decision-making and reporting.
10. Communicate effectively with finance professionals.
11. Integrate ethical financial practices and compliance.
12. Navigate financial audits and external reporting requirements.
13. Leverage financial technology tools for educational leadership.
