Training Course on Leadership in STEM-Focused Schools

Professional Development Training Course Outline

Category	Educational Leadership and Management	**Duration**	5 Days
Base Fee	$1,500 USD	**Delivery Mode**	Online / On-site Hybrid

Course Introduction

In the rapidly evolving educational landscape, Leadership in STEM-Focused Schools is critical for driving innovation, fostering scientific curiosity, and building a workforce ready for the future. Strong leadership in STEM education ensures schools remain competitive, produce high-achieving students, and cultivate a culture of critical thinking, creativity, and technological advancement. Training Course on Leadership in STEM-Focused Schools equips school leaders, administrators, and educators with cutting-edge skills to develop STEM strategies, integrate technology, and promote equity in science, technology, engineering, and mathematics education.

This course focuses on empowering educational leaders with transformative leadership techniques, advanced data-driven decision-making, and robust STEM curriculum frameworks. Participants will gain expertise in mentorship, partnership building, digital transformation, and resource mobilization to champion STEM excellence in their institutions. By the end of this training, attendees will be equipped to reshape their educational environments, promote student engagement in STEM, and influence policy and practice at all levels.
